

The Little Circle

Your companion that tells you what's real.

thelittlecircle.com

The Problem

We can't tell what's real anymore.

90%

of people have seen AI content they thought was real

500%

increase in deepfakes in the last 2 years

4.7B

social media users exposed to AI content daily

AI-generated images, videos, voices, and text are everywhere, social media, news, dating apps, business communications. People are getting fooled daily, and it's only getting worse.

The Solution

One tap to know.

The Little Circle is an AI detection companion a small floating circle that lives on your screen. Tap it, and it tells you instantly if what you're seeing is AI-generated.

- Works on any content: images, video, text, audio
- Always there, never in the way
- One account syncs across all your devices

Always there.
Just tap.

How It Works

Simple. Seamless. Smart.

1

See Something

You're scrolling your feed and spot content that might be AI.

→

2

Tap the Circle

One tap on your companion. It scans what you're viewing.

→

3

Know Instantly

AI or Real? You get the verdict in under 2 seconds.

Proximity Detection

Eye Tracking

Voice Commands

Cross-Device Sync

Market Opportunity

Everyone with a phone needs this.

$47B	$8.2B	$850M
TAM	**SAM**	**SOM**
Global digital trust & safety market	Consumer AI detection & verification	Mobile-first AI detection apps

The AI content detection market is projected to grow 34% CAGR through 2030 as synthetic media becomes indistinguishable from reality.

Business Model

Freemium with clear upgrade path.

Free

$0

- ✓ Limited daily scans
- ✓ Basic auto-detect
- ✓ Single device

Pro

$4.99/mo

- ✓ Unlimited scans
- ✓ Voice commands
- ✓ All devices
- ✓ Priority detection

- ✓ Everything in Pro
- ✓ Up to 6 accounts
- ✓ Named companions
- ✓ Family dashboard

Target: 15% free-to-paid conversion • $8 average revenue per user • 90%+ gross margin

Why We Win

Zero friction. Always there.

	The Little Circle	Browser Extensions	Upload Tools
One-tap detection	✓	✗	✗
Works on any app	✓	✗	✗
Always available	✓	✗	✗
Cross-device sync	✓	✗	✗
Voice commands	✓	✗	✗
No context switch	✓	✗	✗

Existing solutions require uploading files, switching apps, or only work in browsers. We're the only solution that's always there, always ready, on every screen.

Roadmap

Building the trust layer for the AI age.

Q1 2027

Launch

- iOS & Android apps
- Image detection
- Core companion UX

Q2 2027
